About Us

MGS is a global leader in the design and manufacture of state of the art packaging automation solutions with core competencies in secondary packaging and product handling. Industries of focus are pharmaceutical, life sciences, food, personal care and industrial goods. Since 1979, MGS has successfully fielded more than 16,000 machines in 27 countries worldwide. MGS is part of Coesia, a group of innovation-based industrial and packaging solutions companies operating globally, headquartered in Bologna, Italy.

Our Team

Since our founding in 1979, we've built a team of end-of-line packaging experts who are tested and trained to keep MGS on the cutting edge. We've also created a culture where innovation is rewarded and customer service is a way of life. You'll see it in our collaboration; we'll listen to your needs, swap ideas, help brainstorm solutions and team up to cover every last project detail. We don't shy away from big end-of-line packaging challenges. In fact, many customers have come to us for the results that our competitors couldn't deliver.

Secondary Packaging

MGS offers a full range of cartoning and casepacking machines, designed specifically for the pharmaceutical and life science industries. The CT Platform is a new common platform for all MGS cartoners, incorporating several OEE enhancing features. This platform includes the CT200, Stealth CT and Eclipse CT.

Product Handling

Innovative methodologies for handing incoming product is the cornerstone to successful end-of-line packaging projects. At MGS, we develop, design and manufacture a complete line of product handling solutions to complement and enhance our entire line portfolio.

Our capabilities include:

- High speed infeeds
- High speed singulation
- Bulk to singulation and orientation
- Intermittent and continuous motion arrangement
- Accurate arranging and collating
- Array of technologies for stack feeding solutions

Expert Integration

MGS is dedicated to delivering successful projects. We are experts in OEM equipment integration, enabling us to be the single source for your total solution. At MGS, full-time PMP certified project managers partner with you to deliver your project on time and on budget. We fully support all OEM equipment on your line, including engineering, validation, a single source FAT, installation, technical service and operator training. Our goal is an exceptional customer experience. Don't worry about coordinating multiple suppliers and schedules - let MGS manage your project and deliver a total solution.
